

It all began with...

meeting Horacio Pebete Godoy and our conversations about tango, its music, culture, and people. Also, the discovery of authentic, constructive, and pluralistic tango, which fills both milongas porteñas in Buenos Aires and many other places worldwide.

4tangos is a meeting place.

For all those who seek in tango something that brings us closer to others, that allows us to express ourselves and enjoy this rich participatory culture that we love so much. Our commitment is to create inspiring and authentic events of the highest quality, which will not leave us indifferent.
